Skills

- **Languages**: C++, JavaScript, C, PHP, Java, Python
- **Frameworks**: HTML and CSS, NodeJS, ReactJS, TailwindCSS, ExpressJS
- **Tools/Platforms**: MySQL, Git, GitHub, Figma, Postman
- **Soft Skills**: Problem-Solving, Team Collaboration, Inquisitive, Adaptability

Projects

SafeLynx – Secure Document Hub | LINK | LIVE — Oct'2025 – Dec' 2025

- Designed a secure **web-based platform** to centralize personal, professional, and government document storage while ensuring controlled access, privacy, and easy retrieval.
- Implemented a **full-stack web application** using **React, Node.js, Express, and MongoDB** with secure cloud storage, authentication, document management, and user-centric UI features.
- Developed a **secure document management system** supporting **file upload, document sharing, role-based authorization**, and real-time storage monitoring with **scalable backend** integration.
  Tech: HTML, JavaScript, React.js, Node.js, MongoDB

UniChat – Real time chat Application | LINK | LIVE — Feb' 2025 – Apr' 2025

- Planned a **secure backend** using **PHP** and **MySQL**, handling **user authentication**, **session management**, and **optimized database** operations for **real-time messaging**.
- Initiated a modular and maintainable PHP architecture with features such as **message timestamps**, user online/offline status indicators, and a **secure password** reset system.
- Created a dynamic front-end using **JavaScript** and **AJAX** to enable real-time **one-to-one chat** functionality with seamless updates without page reloads, improving performance and user experience.
  Tech: HTML, Tailwind CSS, JavaScript, React, PHP, AJAX

Training

Data Structure and Algorithm – By ByteXL | LINK — Jun' 2025 – Jul' 2025

- Strengthened core **problem-solving** abilities by working through structured exercises covering fundamental and advanced **data-handling techniques**.
- Enhanced **logical strategy** building by tackling progressively challenging problem sets involving **efficient computational patterns**.
- Gained hands-on experience translating **theoretical principles** into **practical implementations**, **improving solution quality** and **technical fluency**.

Certificates

- Postman API Fundamentals Student Expert | Postman | LINK — Sep' 2025
- Cloud Computing | NPTEL | LINK — Jun' 2025
- The Bits and Bytes of Computer Networking | Google, Coursera | LINK — Sep' 2024
- Introduction to Hardware and Operating System | IBM, Coursera | LINK — Sep' 2024
- Web Development | Free Code Camp | LINK — Nov' 2023

Achievements

- **Solved 310+ LeetCode Problems | LINK** — Feb' 2026
  Strengthened algorithmic skills through consistent practice across varied problem types.
- **Attained Global rank 16th | LINK** — Aug' 2025
  Ranked in the top percentile in CodeChef Starters 203 (2★, 1530).
